CB23F35: Low-Code Application Development using Zoho Creator

Name: BALAAMBIGA C A

Register No.: 240701068

Ex. 7: User, Roles and Permissions

AIM:

To configure different user roles and assign suitable permissions in Zoho Creator for managing access to application components.

PROCEDURE:

1. Create an application with the required forms and reports in Zoho Creator.
2. Open the Users and Permissions section.
3. Create different roles such as Administrator, Manager, and User.
4. Assign suitable permissions to each role.
5. Add users and assign them to the respective roles.
6. Test the application with different roles to verify the assigned permissions.

OUTPUT:
